COLE'S "TWO MAN" control SAFETY CABINETS

used for important personal records in many plants...

The secret combination of the dial lock can be controlled by one person while another person can possess the key to the plunger lock. Of course, one person can be given the combination and key so that two people are unnecessary. The extra protection of having two people at the opening and closing of a "safety" cabinet is yours at low cost. Smooth gliding ball-bearing, suspension drawers. Safety latches and positive lock compressors. This heavy steel grade "A" cabinet will last a lifetime. Mist Green, Olive Green, Desert Sand or Cole Gray baked enamel finish.

an electronic marvel that makes dictating FAST...SIMPLE...EFFICIENT!

So easy to use that any child can operate it. The Cole Dictater will do everything that more expensive machines can do and more. It will record a full 2 hour conference instead of 1 hour as ordinary machines do. The playback comes to you clearly and distinctly instead of in a muffled sound because a full size speaker is built into the machine itself. Other machines have a half size speaker built into the mike. No need to continue buying expensive belts or discs. You can use Cole's magnetic tape over and over again indefinitely. After you try it you will realize why so many thousands of business and professional people use the Cole Dictater.

The easiest-to-use dictation machine ever invented, better than ever with its new 1959 exclusive features!

A powerhouse in the office... dictate... transcribe... record conferences... record telephone calls (both your voice and the voice talking to you)... all with push-button ease.

A world of uses for the Cole Dictater...

FOR OFFICE TRANSCRIPTION
The easiest machine in the world to use... bell-clear tone. Your secretary is an expert in minutes. She will use it as easily as the telephone. She simply listens and types at her own speed.

FOR PROFESSIONAL USE
DOCTORS: dictate clinical records, case histories, conferences and consultations. LAWYERS: dictate briefs, contracts, summations and correspondence. TEACHERS: make progress reports, record lecture notes, improve students' speech.

EASIEST TO OPERATE...
Minutes after it arrives, you'll dictate letters and reports clearer than you ever dreamed possible. With this electronic wonder you can change a word or sentence instantly with the flick of a finger. Errors erase automatically. It's as easy to use as the telephone—easier—should you be interrupted—presto, you can automatically hear your last sentence—make corrections—for "word-perfect" letters.

NO EXPERIENCE NECESSARY...
Dictation with the Cole Dictater requires no experience, requires no fussing, no puttering. Your typist simply listens and types at her own speed.

ORGANIZES OFFICE TIME—SAVES MONEY...
Helps organize your office to save money and time... Dictate when it suits you—during or after hours. Your girl transcribes when it's best for her. Fully eliminates costly old-fashioned stenographic dictation.

IMPORTANT FOR IDEAS...
Don't let that big idea get away! Don't try to keep it in mind. Press a button, presto — the idea is recorded until you are ready to use it.

PAYS FOR ITSELF IN A MONTH...
Eliminates expensive and wasteful routines. The steno time saved alone pays for the machine in weeks—from there on your Dictater is profit!

IT'S PORTABLE...
A wonderful "traveling secretary". Ideal for evening work at home, or to record your ideas in automobile, plane or train. For use by others in your office. The Cole Dictater is light, compact, handsome and sturdy.

Other outstanding features...
- Exclusive...amazing dual recording track. Only Cole enables 2 hour recording on one reel instead of the usual 1 hour. Or use the second track for corrections, makes erasures after typing unnecessary—thereby saving letter retyping.
- Only the Cole Dictater is erasure proof. Impossible for the person transcribing to accidently erase any of the dictation.
- Specially treated tape ends assure automatic shutoff.
- Precision tape timer locates recordings quickly and easily.
- Lightweight. • Hi-Fi speaker is in the machine (not in mike).
- Fingertip controlled, extra-sensitive microphone.
